Executor, Administrator, Trustee Guardian - Estates Managed

LOANS—Farmers are enabled to extend the cultivated area on their farms or increase their livestock by judicious loans on their farm properties.

AGENCY—An organization is established to care for properties and estates of absentee owners, and collections of all kinds are undertaken through branches of our service.

WILLS—We are able to offer you necessary advice in the important matter of making your will and disposing of your estate, and interviews on this subject are specially invited.

THE
Trusts & Guarantee
Company, Limited

(ESTABLISHED 1897)

Capital Paid Up and Surplus	-	-	\$ 1,900,000.00
Total Assets	-	-	20,473,199.00

(as at December 31, 1918)

Acts as
Executor, Liquidator, Administrator
Assignee, Guardian, Receiver
And in every Trust Capacity

The Company is organized specially to perform these duties, its officers are trained by long experience, it is financially responsible, the charges for its services are moderate, and it is more efficient and economical than a private individual.

We invite enquiries about Wills or the disposition of the estates of deceased persons. It costs nothing to obtain this information.

Theo. F. Smith, Secy.-Treas.

87 Third Avenue, New York City

An Irrigated Farm

IN SUNNY SOUTHERN ALBERTA

Some 1918 Experiences with Irrigation

Laurity Selgensen, of Standard, Alberta, irrigated 70 acres of wheat and oats. His irrigated wheat yielded 15 bushels an acre more than that which was not irrigated. His oats 30 bushels more.

W. Smith broke 34 acres raw prairie land in the spring near Brooks, Alberta. This he seeded to wheat and irrigated. His crop averaged nearly forty bushels to the acre.

V. C. Chapman of Rockyford, Alberta, had an average of forty bushels an acre of No. 1 wheat from 46 acres of irrigated land. Part of his land irrigated earlier yielded more than 50 bushels an acre.

M. C. Hanson, of Baintree, threshed 1250 bushels No. 1 wheat from 35 acres of irrigated land, an average of more than 36 bushels to the acre.

F. J. Meech, who is farming 80 acres near Lethbridge, harvested 1500 bushels of wheat, 250 bushels of oats, 6 tons of oat hay, 2½ tons of potatoes and from an acre set aside for a garden sold \$75 worth of vegetables besides growing sufficient for his own family's needs for the year.

H. B. Ramer, who settled at Duchess, in 1917, on a quarter section, harvested 1500 bushels of wheat, 700 bushels of oats and 550 bushels of potatoes. This crop was worth \$4,360. In addition he grew water-melons, cantaloupes, tomatoes, sweet corn in his garden.

C. A. Waltemath, of Gem, harvested a crop of 55 bushels to the acre of oats which were not seeded until June 5th.

is an Ideal Mixed Farming Proposition

The large crops of wheat, oats, barley, alfalfa and various other fodder crops obtainable every year enable a maximum number of cattle, sheep, hogs or poultry to be supported on these farms. Beets, potatoes, tomatoes, all kinds of vegetables and garden produce including cantaloupes, citrons, pumpkins, squash, raspberries, strawberries, successfully grown. Land only \$50 an acre, including water rights. Easy terms. One-tenth cash and twenty years to pay balance. \$2,000 loan for buildings, fencing and well. A chance to become independent.

The Daily Herald

Calgary - Canada

During the past twelve months **The Herald** has increased its circulation by over 4,000, present circulation in excess of 28,000 daily and growing steadily.

In 1918 **The Herald** carried 7,785,933 agate lines of paid advertising and published more classified advertising than any paper west of Toronto with but one exception. In Calgary **The Herald** is supreme, it is the only evening paper published in the business centre of the Province and sells more papers in the city than there are homes.

The Herald is keeping apace with Alberta's rapid growth, it is a big outstanding paper that appeals to all classes and is first choice of advertisers who appreciate real advertising value.

THE HERALD IS THE LARGEST PUBLICATION BETWEEN WINNIPEG AND THE PACIFIC COAST, A DISTANCE OF OVER 1,500 MILES.

Member Audit Bureau of Circulations. Circulation statements and detailed information regarding the opportunities Sunny Alberta holds forth upon request.

Webber's Service Garage

LIMITED

Not Merely a Garage but an Institution

Our splendid new garage, opened in June, 1919, is the finest and most complete automotive service plant in Western Canada. Every unit of a car, truck or tractor has a department specializing on its adjustment or repair. Half a hundred skilled mechanics are at your service.

Ford and Chevrolet owners will be especially pleased with our Repair and Supply Service

Gasoline, Oil, Air and Water are furnished 24 hours a day at our duplicate curb stations. We wash cars CLEAN overnight. We operate a fast wrecking and "tow-in" service. The speed, excellence and scope of our service are generally conceded.

Our attractive accessory shop is well stocked with tires and motor supplies.

Clean and pleasant rest rooms for men and women are always open.

Introductory

THE PUBLISHERS take pleasure in presenting herewith the Fourteenth Annual Edition of Henderson's Calgary Directory, embracing the area of GREATER CALGARY, comprising the territory of the City proper and all adjoining subdivisions, suburbs and environs.

The Advertising Department presents the names of corporations, firms and individuals who are making Calgary the great city that it is, and who are a power in the financial, industrial and commercial world of Western Canada.

The Miscellaneous Section in the front part of the volume, containing up-to-date statistics and information, much of which is not to be found elsewhere in print.

The value of the street section is not appreciated, perhaps, by some who desire to find a certain house on a street unfamiliar to them to the extent it should be. By application of the following example the location of any street number can be found expeditiously: Suppose 723 Twelfth Avenue W. is wanted: refer to street section Twelfth Avenue W.—glance down to 723, then to the nearest intersection to 723. It will be found that this number is on the south side of the street, four houses west of Sixth Street, between Sixth and Seventh Streets.

The Classified Directory contains a complete alphabetically arranged list of all articles manufactured and sold in Calgary, which forms a most efficient wholesale and retail buyer's guide.

The Calgary Directory is placed in the Directory and Public Libraries throughout the United States and Canada, where it serves the public as a valuable book of reference and the city it represents as a splendid standing advertisement, for no other publication can convey such an idea of the city, its business interests and all the various institutions and organizations. Few people realize what splendid publicity this affords the City and its Industries.

The Directory method of estimating population is to multiply the individual names the Directory contains by a common multiple. The figures given below are more in the nature of a calculation. A complete census only can give definite and accurate figures.

1918 POPULATION OF GREATER CALGARY, 72,219

1919 POPULATION OF GREATER CALGARY, 78,685

These figures deal with Greater Calgary, and are an estimate only, based upon the number of names the Directory contains. **It is not a census.**

The Publishers desire to thank their patrons and the general public for the courtesy extended at all times to their representatives, and to say that they fully appreciate the confidence which the business and professional men of Calgary have always shown in their publications.

City of Calgary

LOCATION

Situated in what must eventually become the manufacturing belt of the West, and lying contiguous to the great undeveloped coal and oil areas of the Province, the city of Calgary looms prominently on the railway map as lying at the confluence of the Bow and Elbow Rivers. Being 860 miles west of Winnipeg and 640 east of Vancouver, it is practically the commercial metropolis of the Province. Most of the leading Eastern manufacturers and wholesale houses are represented here by over 3,000 commercial travelers.

INCORPORATION

Incorporated in 1884 as a town, it received its city charter ten years later, when its population amounted to about 6,000. Since then Calgary has grown to be a metropolitan city.

Calgary appears to be the geographical railway centre of Alberta. The Edmonton branch and the Macleod branch of the C. P. R. runs north and south respectively. In addition, the G. T. P., the C. N. R. and the Great Northern are now running trains into Calgary.

Calgary is the western headquarters of the C. P. R.; controlled by a general superintendent and with a large staff of officials and clerks.

INDUSTRIAL

Calgary appears a favored place for the milling industry of the Great West, but it also holds plants manufacturing Portland cement, soap, lumber, beer, oils and paints, iron foundries, packing and abattoir plants, brick plants, and many others. The largest employer of labor in the city at present is the Canadian Pacific Railway.

NATURAL GAS

The discovery of natural and wet gases in the district has given an impetus to the encouragement of numerous industries, and that valuable asset now supplies power to manufacturers and also lights portions of East Calgary. Too much importance cannot be accorded to this discovery.

All the new business blocks of Calgary are of substantial construction, built generally of stone, brick and reinforced concrete, many having steel superstructure. Material for the erection of all buildings can be supplied on the spot.

FRANCHISES

Calgary is municipally owned, controlled and operated. The street railway system, at the present time, consists of about 71 miles of trackage. The electric light and power department is controlled by the commissioners. The waterworks system, which at the present time consists of some 193 miles, is being largely increased.

CLIMATE

The climate of Southern Alberta is ideal, and on account of its altitude—some 3,400 feet above sea level—Calgary has long been favorably noted for its beneficent attributes.

EDUCATIONAL

Calgary's educational advantages are of import, its modern equipped school buildings furnishing every requirement to make them perfect. The public school buildings in the city are exceptionally attractive. There are also a number of private schools, including Western Canada Mount Royal College (Methodist), St. Hilda's Girls' College, Bishop Pinkham College, the Sacred Heart (R. C.) Convent, and several business colleges.

PARKS

The city is well provided with parks, comprising some 577 acres. Five of these are located in the centre of the city, and give every opportunity to the young and old to enjoy themselves as they wish. Band and orchestral concerts are given at times in one or other of these parks.

FARMING

Of great importance to the neighborhood is the fact that the Provincial Government of Alberta has established throughout the Province creameries and cold storage plants, and situate within touch of Calgary. This means that Calgary acts as a distributing centre for those products. Further significance is lent by the C. P. R., whose irrigation policy is in no small way revolutionizing the farming and ranching industry throughout Southern Alberta. Up to date they have expended at least over \$15,000,000 and are now spending at least an additional \$15,000,000 to complete their irrigation system from Bassano to Medicine Hat, a distance of about 75 miles.

Progression

THE CITY OF POSSIBILITIES

In 1881 Calgary consisted but of the Hudson's Bay Company's store, another occupied by J. G. Baker, the Mounted Police Barracks and the house of the commander. Three years later mention is made in the Henderson Directory for the North West Territories of Calgary's population being at that time about 500. "Mails twice a week." "Stage weekly to Edmonton and Fort McLeod" are interesting events reflected in that compilation.

POPULATION

The year 1906 saw the first city directory for Calgary, which was issued by Henderson Directories. An estimate of the population then is stated as 20,000. As showing the carefulness of the publishers in arriving at that estimate, the police census in the following year returned the population at 21,000.

In 1909 the police census returned the city as holding 29,265, but the Henderson Directory for 1910 estimated the population, then, at over 40,000. Two years afterwards it had increased to nearly 74,000.

STREET RAILWAY SYSTEM MUNICIPALLY OWNED AND OPERATED

Calgary can well point with pride to its street railway system. Installed in July, 1909, with only 16½ miles of tracks and four cars, it has been a revenue producer from the commencement. More cars were added as rapidly as possible, and during the first six months of its existence the system showed a net profit of \$10,001.37. It is now an exceedingly valuable adjunct to the city, which receives large dividends on the outlay expended. The system is managed by the mayor, commissioners and a superintendent.

LIGHT AND POWER DEPARTMENT

Municipally owned, controlled and operated. Installed at a cost of approximately \$1,000,000.

The city plant is capable of supplying 2,000 h. p. 24 hours daily, service generated by steam. An auxiliary 2,000 h.p. daily service is received from the Calgary Power Company, which has a water power plant forty miles west on the Bow River. The city reserves all rights to distribute light and power throughout the city, and the rates are very low, being as follows:

Light—75c per month for the first light, 60c each additional. Meter basis, 11c per K.W.

Power—6c per K.W., with discounts for prompt payments.

It will only be a short time when all municipal wires will be laid underground in conduits. Several miles have already been laid, and the work of extending the conduit system is being rushed as rapidly as possible.

The light and power department has netted the city a profit since its inauguration.

WATERWORKS

Calgary has gravity system of waterworks. Pure, fresh water comes from numerous streams in the adjacent Rocky Mountains, a few miles west. Piped twelve miles from Elbow River to the reservoir, which has a capacity of 20,000,000 gallons.

Water rates in Calgary are lower than 80 per cent. of the cities in the United States, and lower than a great majority of towns and cities in Canada.

An auxiliary plant is kept in constant readiness in case of accident or serious conflagration to relieve or assist the gravity system. Three pumps, with 5,000,000 gallons capacity, are located at this plant on the Bow River.

The water main pressure is at all times maintained at an average of 70 pounds, but for fire purposes it can immediately be raised to from 90 to 105 pounds.

IRRIGATION IN ALBERTA

Immediately east of the city of Calgary lies the important irrigation project of the Canadian Pacific Railway the largest individual project on the American continent. The area embraced is actually a little over three million acres, considerably more than half the total area of the acreage included in all irrigated projects in the United States promoted as commercial enterprises.

The irrigation block is bounded for a considerable distance on the south by the Bow River, and for an almost equal distance on the north by the Red Deer River. It is traversed through its entire length—about 140 miles—by the main

line of the C. P. R., with numerous branches of the same line and of other companies either now operating or shortly to operate through it.

Although, as a rule, the agricultural districts of Western Canada have sufficient rainfall to insure good crops without irrigation, still there are certain areas where the rainfall is somewhat limited, and where there is very little snow; and it is these areas that have been or will be developed by the establishment of large irrigation enterprises. The southern part of Alberta, where the natural precipitation is rather limited, is favored by nature inasmuch as abundant supplies of water are easily available. The near-by Rocky Mountains, on which snows melt every year and on which glaciers will be melting for thousands of years to come, provide a plentiful and never-failing source of supply.

The country is also, from the engineering point of view, peculiarly suited to irrigation, lying in long plateaus sloping away from the base of the Rocky Mountains. Practical men, seeing the possibilities of irrigation in this area, were not satisfied to allow it to lie in a semi-productive state, when it might be converted into one of the richest agricultural districts on the continent.

Irrigation means crop insurance—or, in other words, a crop every year, instead of a crop lost through insufficient moisture or missed through necessity for summer-fallowing—it means increased production, bigger crops and special crop-production, which last includes the various fodders, such as alfalfa, which last cannot ordinarily be raised without irrigation. Other things being equal, irrigated lands lead to more intensified working, bring about closer settlement, attract a larger population per square miles, and produce more freight, and consequently more business, per acre.

Every crop that can be raised in a temperate climate can be grown under irrigation in Alberta. In the year 1915, some very exceptional yields were obtained, wheat reaching in some instances the phenomenal figure of 70 bushels per acre, oats 130 bushels per acre, and barley 70 bushels per acre. These, of course, are greatly above the average, but in the western section of the irrigation block, taking only wheat crops making fifty bushels or more per acre, there are no less than 6,379 acres which produced on an average 54½ bushels per acre.

Like all irrigation schemes, this one is particularly suited for stock raising and dairying. The chief attractions are land at cheap prices and a market greatly in excess of the supply. The great immigration of recent years has created many large communities whose consumption of food products is growing every year quicker than the producer can keep pace with them. At the same time, a very flourishing export trade has been built up.

There are now in the block large acreages under alfalfa. In 1915 there were about 1,500 acres in the western section alone devoted to this very profitable crop, which has been happily called "The King of Fodders." Alfalfa will yield from one to three tons per acre under irrigation in one, two or even three cuttings. Timothy is another crop that is receiving great attention, and in the eastern section the successful growing of sugar beets is now being demonstrated. Corn has been grown success-

fully, and as experimenters produce more and more a harder variety that will withstand the cool nights of the prairies, it will become more popular. Alberta farmers, however, champion wheat and barley as superior to corn for feeding purposes, and certainly the way in which hogs, fed in Alberta on these grains only, have found a market in the United States, is a big argument in their favor.

The water supply is obtained from the Bow River. For convenience of development the block is divided into three sections: western, central and eastern. The western section has been under development for almost ten years; the eastern section is just beginning to be colonized, while the central section has not yet been surveyed. For the western section, headgates are situated at the eastern limits of the city of Calgary, and divert water which reaches the individual farmers by an elaborate system of main and secondary canals. The area of this section is a little over a million acres, of which about 220,000 have been brought under ditch. There are altogether sixteen hundred miles of main and secondary canals and distributing ditches, in addition to several hundreds of miles of farm laterals constructed by the farmers.

The eastern section contains some 1,150,000 acres, of which 400,000 are ultimately to be rendered irrigable. Water is obtained from the Bow River by means of a great dam which has been constructed near Bassano, eighty miles east of Calgary. This is the second largest of its kind in the world, nearly 8,000 feet in length, and raises the level of the river some 46 feet. Another very notable structure is a long aqueduct at Brooks, still further east—a concrete flume twenty-three feet wide by nine deep, two miles long, which crosses a wide valley at a height which reaches a maximum of sixty feet.

It is not altogether out of the question that the next few years will see a great expansion in the science of irrigation in this country. The Lethbridge irrigation system, which has been in existence some fifteen or sixteen years, has been so successful that it has inspired many farmers inhabiting neighboring districts to inaugurate a movement for the Dominion government to create irrigated areas elsewhere.

GENERAL DESCRIPTION OF THE C. P. R. COAL MINES

Passing as it does through several regions of great wealth, it is not surprising to find that so enterprising a company as the Canadian Pacific Railway has extensive mineral holdings. With the project of transition in certain districts from coal to oil and electricity, it is vigorously investigating the oil possibilities on its lands in Alberta, Quebec and New Brunswick. Apart from its own consumption, it obtains substantial traffic from minerals, and the construction and successful operation of the Crow's Nest Branch was and is largely due to the mineral resources along the line in Southern British Columbia. At a time when the mining industry in that region was endangered by the collapse of a boom, the C. P. R. took over the Trail smelter, which deals with ores collected from the different mines in British Columbia. In order to feed this smelter, branch lines are being built, as, for instance, the Kootenay Central—through the upper Columbia Valley, which will render accessible the rich silver-lead veins on the eastern slope of the Selkirk Mountains.

Coal has hitherto been the mineral most fully exploited, and the Coal Branch of the Department of Natural Resources has three groups of mines in active operation—at Bankhead, near Banff, Alberta; at Beinfait, Saskatchewan, and at Lethbridge, on the plains of Southern Alberta. The total output of these three groups in 1915 was 471,257 tons.

BANKHEAD is particularly interesting as being the only anthracite mine in Canada. The company owns the entire village, renting houses to the miners, and has provided them with a baseball park, football and tennis yard, skating and curling rinks. Every man coming off duty has a hot or cold shower bath, leaving his working clothes in a locker.

In addition to the coal, the coal dust, which otherwise would be considered waste, is mixed with coal tar pitch, subjected to a pressure of 2400 pounds to the square inch, pressed into little squares and sold as briquettes which can be used for domestic purposes like ordinary coal, and also as fuel for locomotives, as they give out intense heat. The C. P. R. manufactures its own electric light for use at Bankhead and also supplies the neighboring town of Banff.

Instead of going down a shaft to get to the Bankhead mine, one climbs a mountain—one of the Rocky Mountain Range. Five seams are now being worked at these different levels which are respectively 4,630, 4,980, 5,244 feet above sea level. The height of these while entailing an expensive means of approach, is in the end economy, for the cost of transportation of the mined product is reduced by the adoption of a gravity system. That is to say, a loaded car not only runs down the incline from the mouth of the level to the level of the breaker, but also pulls up an empty car by a cable on the other track.

The lowest of "A" level has two tunnels, one gravel tunnel extending back 1,200 feet and the other a rock tunnel about 2,280 feet. The "B" level, 330 feet about it is in 4,400 feet and is on 5,400 feet. The "C" tunnel is 2,500 feet. The length of the inclines carrying the tracks up the various levels is 3,075 feet, which is to say about three-quarters of a mile. The seam goes back several miles.

The mine buildings consist of a boiler house, power house, machine shop, blacksmith shop, carpenter shop, warehouse, timber, framing shed, briquette plant breaker, lamp-house and stable.

LETHBRIDGE has the most profitable mines operated by the C. P. R. and supplies the prairies and the local market with a high grade lignite.

In addition to these, the C. P. R. has extensive coal claims at Elk River and iron claims at Kitchener, which are not yet worked.

An asset which will without doubt prove of immense value to the company consists in the mineral rights underlying the agricultural lands comprised in the 25,000,000 acres Government land grant. The exact area of the coal field known to underlie many of these sections has not yet been determined, but one expert who made an extensive investigation maintains that at least 3,000,000 acres of C. P. R. land overlie coal. Until the last few months these rights were sold outright to those who cared to purchase. In 1912 it was \$20.00 an acre. Now the company has decided to retain the ownership, giving 21-year leases on a royalty

basis to such purchasers only as undertake to develop their mineral right.

So, too, in the case of oil and natural gas, these rights will no longer be sold, but will be leased only to purchasers who undertake to spend sums of money to drilling wells. The recent discoveries of oil in Alberta created a stampede much like the old gold rushes. Syndicates have been formed and the activity in this field is pronounced.

The greatest progress, however, has been made with the development of natural gas, which in three years' time has converted Medicine Hat into a thriving industrial city. "Old Glory Well" at Medicine Hat was for some years previous a familiar landmark, but there are now many other such wells.

The C. P. R. was one of the pioneers in this field, and sank many test wells at various likely spots. Some of these were sold to the Calgary Natural Gas Company, in which the C. P. R. holds stocks, in addition to which it draws a royalty of six cents per thousand cubic feet. In addition it has proved wells at Bassano, Brooks and Dunmore, and innumerable applications are on its files from substantial syndicates, etc., for permission to drive further wells which will, without doubt, prove a source of considerable future revenue. The value of natural gas in attracting new industries in Alberta cannot be over-estimated, and as Alberta promised to become an important industrial centre, it is logical to turn to the work done by the Industrial Branch of the Department of Natural Resources.

FIRE DEPARTMENT

Headquarters: No. 1 Fire Station, cor. 1st St. E. and 6th Ave. E.

Chief—James Smart

Assistant Chief—A. Carr

Supt. Fire Alarms—C. O'Brien

The Calgary Fire Department is considered and acknowledged to be one of the most efficient and up-to-date in the Dominion of Canada. There are 10 fire stations in the city, manned as follows:

- 1 Chief
- 1 Assistant Chief
- 1 Master Mechanic
- 1 Motor Mechanic
- 1 Secretary
- 8 Captains
- 6 Lieutenants
- 1 Superintendent of Alarms
- 1 Electrician
- 81 Firemen

EQUIPMENT

- 1 Steam Engine
- 1 City hook and ladder
- 1 Aerial truck
- 1 Motor (chief's car)
- 1 Motor (assistant chief)
- 1 Buggy
- 1 Motor Chemical
- 2 Motor combination engine and hose
- 7 Motor hose wagons
- 1 Motor aerial truck
- 16,000 feet of hose
- 1 Motor city service truck
- 1 Motor salvage car
- 1 Motor Chemical and emergency car

FIRE ALARM SYSTEM

- 1 6-circuit switchboard (Gamewell)
- 1 2-circuit switchboard
- 1 6-circuit automatic repeater
- 1 3-circuit automatic repeater
- 9 large punch registers
- 8 small punch registers
- 9 electro-mechanical gongs
- 1 arc rectifier equipment
- 1 motor generator equipment
- 9 automatic street corner signals
- 10,000 feet underground cable
- 85 miles of line wire
- 5 cable terminal posts
- 476 cells electric storage batteries
- 147 standard fire alarm boxes
- System divided into nine circuits

FIRE STATIONS

- Headquarters: No. 1 cor 6th Ave. and 1st St. E.
- No. 2 Station—18th Ave. and 2nd St. E.
- No. 3 Station—1030 9th Ave. E.
- No. 4 Station—104 6 a St. N.E.
- No. 5 Station—1139 17th Ave.
- No. 6 Station—1111 Boulevard N.W.
- No. 7 Station—140 16th Ave.
- No. 8 Station—10th Ave. and 20th St. E.
- No. 9 Station—Ogden Subdivision
- No. 10 Station—Glengarry Subdivision, 2415 26th St. W.

PUBLIC PARKS

The public parks of the city, which heretofore have been under the control and management of the Parks Boards, are now under the supervision of the Commissioners. For the purpose of providing the expenditures required for park purpose, a rate up to three-quarters of a mill on the dollar may be levied on the general assessment.

Park Supt.—W. R. Reader

St. George's Island Park—Island on Bow River, approached from 9th Ave., East Calgary

Central Park—12th Ave. W. bet. 2nd and 4th Sts

Victoria Park—2nd St. E. and 17th Ave.

Mewata Park—8th Ave. W. and 14th St.

Hillhurst Athletic Park—Bounded by 12th St., 14th St. and 5th Ave. N.W.

Riley Park—Bounded by 5th Ave., 6th Ave., 10th St. and 12th St. N.W.

Shouldice Park—Two miles west of city limits

Tuxedo Park—Situate in Tuxedo Sub-division

Shaganappi Park—West end of city

Bowness Park—About 4 miles west of city limits

PUBLIC LIBRARY

Central Library—2nd St. W. and 12th Ave.

Crescent Heights Branch—1806 1st St. N.W.

Hours of Opening

9 a.m. to 9.30 p.m. (9 p.m. June to August), Sundays 2 to 6 p.m.

The Library is closed on Victoria Day, Dominion Day, Labor Day and Christmas Day; is open for reading only on New Year's Day, Good Friday and Thanksgiving Day.

Membership Privileges

The Library is free to all who live or work in Calgary. Books may be borrowed at once on filling out an application at the library.

Administration

The library is administered by a Board consisting of six members appointed by the City Council and the Mayor, who is a member ex-officio. Only one member may be an alderman.

The city is empowered by the Provincial Library Act to levy, in addition to all other taxes, a library rate not exceeding one mill on the assessed property.

The Board at present consists of the following:

W. D. Spence (chairman), Dr. A. M. Scott, Mrs. E. P. Newhall, Rev. J. Macartney Wilson, Mayor Marshall, Alex. Ross, Ald. (Mrs.) W. J. Gale and Alexander Calhoun (Librarian and Secretary-Treasurer)

Book Collection

The library has now over 30,000 volumes in its various departments, over 20,000 being available for lending purposes

Reference Department

The reference library is a separate collection of over 3,000 volumes of books of reference and bound periodicals.

This department is designed to meet the needs of students and workers in every field who need special data of any kind. Telephone or mail inquiries receive prompt attention. Special lists of the best books and articles on any subject will be prepared at any time by the reference librarian, who gives all her time to this work.

Technical Reference Department

The works of Technical Reference form a separate department. Here also will be found technical books for loaning, and the best technical magazines covering Engineering, the Trades, Commerce and business.

Children's Department (Upper Floor)

This department is a separate collection of 3,500 carefully selected volumes, under the supervision of a specially trained children's librarian. Children up to fourteen are eligible for membership.

Lecture Hall

A small lecture hall is on the upper floor, seating 100 and equipped with a splendid lantern. This room, as well as several others, is available at a nominal fee for any educational purpose. It is in constant use.

Crescent Heights Branch

The library has one branch at 1806 First Street N.W., with a collection of 4,000 books.

CALGARY MUNICIPAL STREET RAILWAY

(Operated by the City Commission)

Offices and Car Sheds—2nd St. E. bet.

Victoria Park and Elbow River.

Began operation July 5th, 1909

Superintendent—T. H. McCauley

The following statistics show the growth of the system since its birth:

Cars

July 5, 1909—2 on 3 miles of track
July 1, 1910—15 on 16½ miles of track
July 1, 1911—22 on 26½ miles of track
July 1, 1912—48 and 54 miles of track
July 1, 1913—65 on 70½ miles of track
July 1, 1917—95 on 71½ miles of track

Fares

School (pink) 8 tickets for.....25c
Ordinary (blue) 5 tickets for.....25c
Ordinary in pads of 22.....\$1.00

Every car exhibits a colored sign indicating its route, also a notice showing its destination.

PART II.

Principal—J. H. Ross

This institute which was organized in
June, 1916, by the Department of Edu-
cation as the provincial technical college
for Alberta, is now serving the purpose
of retraining partially disabled soldiers.
At the present time it is under the
joint control of the Minister of Education
and the Invalided Soldiers' Commission.

CHILDREN'S AID AND JUVENILE COURT

Office: Fourth floor of Police Headquarters Building

Children's Aid Society, in conjunction with the Juvenile Court, looks after the needy, delinquent and homeless children of the community.

The new Children's Shelter is at Harveta Heights, Ogden District. Matron, Miss Lucille Cook, Phone E5393.

The Juvenile Court is held in the office of the Society, and the judges for 1919 are: T. A. P. Frost, F. D. Beveridge, Mrs. R. R. Jamleson, Mrs. F. Langford and Rev. A. McTaggart. Particulars re licenses to children to engage in certain trades and prohibition of their attendance at pool rooms, etc., are obtainable from the secretary.

CALGARY NATURAL HISTORY SOCIETY

Museum: Basement Court House, 7th Ave. W.

The membership of the society is \$1 per year, and entitles the holder not only to the privileges of the society, but to a course of free lectures by men eminent in their special fields of knowledge.

The principal part of available funds from membership and other sources will be spent in obtaining further specimens for the museum, which even now in its initial stage is well worth a visit.

Its collection embraces a very fine collection of Indian relics, mounted animals, birds and insects native to the province, as well as fossil remains.

Secretary's Office: 489 Endicott Bldg., St. Paul, Minn.

THE OBJECTS OF THE ASSOCIATION

The Association of the American Directory Publishers is composed of reputable City Directory Publishers, organized for the general advancement of the Directory business. Any person, corporation or firm engaged in business as owner and publisher of a City Directory in the United States or Canada, who shall qualify as competent to gather information and compile a City Directory and furnish satisfactory references, is eligible to membership.

The objects of the Association are:

First. The advancement of the Directory business and the improvement of Directories by the interchange of ideas and the exchange of experienced employees

Second. To provide protection to the public against fraudulent advertising schemes which operate under the name of Directories, and to drive unprincipled promoters of the same out of business.

Third. To provide permanent and profitable employment to competent, industrious and honest Directory canvassers and compilers.

Fourth. For the mutual protection and advancement of the established and prospective interests of all who may become members, by personal advice and assistance of members as may be mutually satisfactory, desirable or advisable, and by such other means as may, from time to time, be shown to be wise, proper and lawful.

\$100.00 REWARD will be paid by the Association for the arrest and conviction of any person or persons engaged in publishing, collecting or canvassing for any fraudulent or fake Directory.

Henderson's Calgary Street and Avenue Directory Including Sub-Divisions and Their Locations For 1919

HENDERSON'S (1919) CALGARY

101

Method of Numbering Streets, Avenues and Houses

Calgary's streets are numbered from Centre Street, east and west and from Centre Avenue, north and South. Example: The first street west of Centre Street and south of Centre Avenue would be First Street S.W., oftentimes called First Street West. The first street east of Centre Street and north of Centre Avenue would be First Street N.E., and so on.

The Avenues are numbered from Centre Avenue and Centre Street. Example: The first avenue south of Centre Avenue and west of Centre Street would be First Avenue S.W., and so on; and the first avenue north of Centre Avenue and west of Centre Street would be First Avenue N.W., and so on.

Half streets or intervening streets are designated "A" or "One-half."

Houses are numbered under the following system: Each lot has a number. The even numbers are on the north side of the avenue and the odd numbers are on the south side of the avenue. On the streets the even numbers are on the east side and the odd numbers are on the

west side. Each block numbers from 100 as follows: 116 8th Avenue West would be on 8th Avenue, between Centre and First Street West. 217 8th Avenue West would be on 8th Avenue between First and Second Street West. On the streets the numbers run as follows: 211 Centre Street South would be on the west side of Centre Street, between Second and Third Avenues and 712 Centre Street South would be between Seventh and Eighth Avenue and so on. Each block starts numbering from the hundred following the block preceding it.

NOTE.—The arrangement in the following Street and Avenue Directory is in numerical order, following Centre Avenue and Centre Street which appear first, with Avenues preceding Streets. The arrangement by directions is East, West, North East, North West, South East and South West. Streets and Avenues not numerically named appear last in alphabetical order.

Where the odd and even numbers on an Avenue or Street are separated, the south side (odd numbers) on Avenues will appear first and the west side (odd numbers) will appear first on Streets.

HENDERSON DIRECTORIES, LIMITED

Mailing Lists—Addressing

279 GARRY ST. : Phone MAIN 7224
WINNIPEG

Letters:-

They do "get in" and they should be used to help your salesmen.

They may be sent to thousands whom you can only interview by mail.

First--you need a GUARANTEED MAILING LIST. We have excellent lists of farmers and rural residents --the trades--automobile owners and dealers.

Write and let us explain our complete mail-order service.

HENDERSON DIRECTORIES, LIMITED
Winnipeg

SPECIAL ADVERTISING DEPARTMENT

The Daily Herald

Calgary - Canada

During the past twelve months **The Herald** has increased its circulation by over 4,000, present circulation in excess of 28,000 daily and growing steadily.

In 1918 **The Herald** carried 7,785,933 agate lines of paid advertising and published more classified advertising than any paper west of Toronto with but one exception. In Calgary **The Herald** is supreme, it is the only evening paper published in the business centre of the Province and sells more papers in the city than there are homes.

The Herald is keeping apace with Alberta's rapid growth, it is a big outstanding paper that appeals to all classes and is first choice of advertisers who appreciate real advertising value.

THE HERALD IS THE LARGEST PUBLICATION BETWEEN WINNIPEG AND THE PACIFIC COAST, A DISTANCE OF OVER 1,500 MILES.

Member Audit Bureau of Circulations. Circulation statements and detailed information regarding the opportunities Sunny Alberta holds forth upon request.
